ADX Firecast Pro. 24 Microphone	AD XMIC24
ADX Firepower ADV. 24 RGB Gaming Mouse	AD XM1224

System Requirements

Operating Systems: Microsoft® Windows® 10 / 11

Software Installation

1. Download the latest gaming software (**ADX HUB 2**) from <https://downloads.adxgaming.com>
2. Run the software installer.
3. Follow the installation instruction to complete the installation.
4. Choose **ADX HUB 2** from the desktop to start the software.

The software is not available for MAC OS.

User Interface

In the user interface, you can see all the connected gaming devices. Select a unit and set your preferred settings.

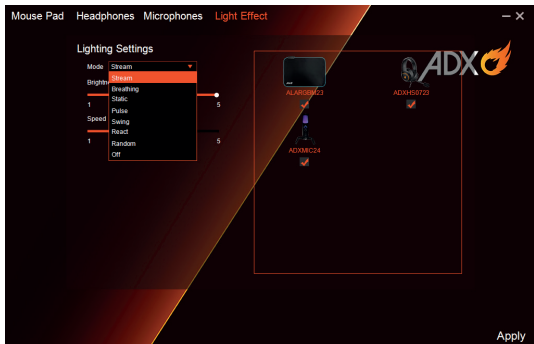

When you connected more than 6 devices, it shows "**You can only connect up to six devices at the same time**". Press "**OK**" to exit. Make sure that you only connect a maximum of 6 devices to your computer for light synchronization setup.

User Interface - Synchronize Light Effect

If one more ADX gaming device is connected, you may synchronize their light effect at once.

1. Select **Light Effect**, and then the devices you want to apply the light effect.
2. Launch the **Mode** menu, then select between **Stream**, **Breathing**, **Static**, **Pulse**, **Swing**, **React**, **Random**, **Off**.
3. Select your preferred settings (e.g. **Brightness**, **Speed**).
4. Select "**Apply**" to implement your settings.

To reset the setting of a particular device, select that connected device in the menu, and then select **Reset** to proceed.

Hints and Tips

- Make sure that your gaming devices have been fully plugged into the computer before running the software. Otherwise, the display will show "**Please connect your ADX gaming product**".
- If the software is not working properly, uninstall it and then reboot the computer. Re-install the software.
